This book does rock

By K. Liesl

It's not correct to say I finished this one. Every time I open it there's something new to look at. This book is just gorgeous and has a ton of retro and vintage rock photos. My favorite is the use of vintage posters, album covers and rock tickets. In addition to the look, Thompson's picks are on the money but he struggles to put some genres into context. One example is an odd placement of a Bela Lugosi biography used at the

beginning of a chapter on movie theme songs. Still, this is a book you'll love to own and want to share.

4 of 4 people found the following review helpful.

A beautifully engaging book

By Patrick Prince

I'm proud to attach my name to an endorsement of this book. First off -- as witnessed through his many years as a Goldmine Magazine contributor -- Dave Thompson is an extremely witty and knowledgeable rock journalist and his writing style fits the objective of this book. Thompson is an expert on song selection and categorizes them here in a fun and engaging way. Visually stunning, this is the kind of book that will be hard to read only once and then abandon on a bookshelf somewhere. It's like a reference guide and coffee table book all in one; a book that you will enjoy returning to again and again. That's when you know a book is a good investment!

Fun and entertaining book

By LA

Love reference books, but this is more than that: it's fun to read, makes you laugh, and makes you often think about songs you might have forgotten. Love the way it is organized into witty categories, too -- makes it a page-turner. Lovely design.
