A well-known novelist in free-fall returns to his former life only to play a role in its final, heart-rending destruction. What he does next throws his own survival into question and may decide the fates of near-strangers that he has quickly grown to care about. A disturbing episode in a crowded Waffle House pushes a faltering relationship past its breaking point. An elderly man pays yet another visit to the site of a tragedy that has colored his entire life. *A Loss for Words & Other Stories* collects 10 years' worth of such tales, often depicting the human side of decay and abandonment. A journal of the author's frequently harrowing experiences while performing vegetation surveys throughout the remote Cumberland Plateau region of eastern Tennessee is also included. In 2004, John Mulhouse started the *City of Dust* blog, dedicated to photo-documentation of the numerous derelict historic buildings and abandoned places along the Georgia-South Carolina border. Over time, occasional fictional (and not-so-fictional) pieces began to make their way onto *City of Dust*. The majority of these are contained in this anthology.

This is a book, every book-lover must have. John Mulhouse's collection of short stories will evoke a whole

spectrum of emotions - some will make you think, some cry or smile...and read them again. These every day situations imbedded into metaphorical and symbolic scenarios will make you to scratch your head. But the book offers you much more. A classic crime story, which resembles those old school Chandler-like stories with some twisted leads but still easy to follow. Good style, smooth and enthralling. Towards the end, the book will take you into the woods of Tennessee and let you participate in the author's mission... totally new and unknown world to me. Great reading, absolutely worth your money. Highly recommended!

I really enjoyed this book and want to start reading actual books again before bed like I used to before the internet!

By Patrick J. Montgomery

John has an intuitive sensible approach to his writing that brings you right into his world. His common sense style of thinking/writing guides you along as if you were perhaps with John as a sidekick in the Old West (which I dearly love). In fact, I had a younger engineering technician call me at work, the day after I finished the book and he was trying to troubleshoot a brake on a Wind Mill tower, we bumped heads and came up with a solution, the fellow reminded me of John's writing style--like he had directly connected me to the younger generation. I have converted vinyl for a music blog since 2008 and started following "City of Dust" blog a couple years ago, drawn to abandoned places myself and without a second thought bought his book. I used to read right before bed as a regular habit until my internet "blurb" reading took over so I quit a few years ago, but this is the first book I have completed in years in that way and it really gives you a satisfaction quite different from reading a little cell phone or at a desk P.C or tablet (which I don't own). I think I will start buying books again because of John, and keep my old RELAXING habit of reading in bed right before sleep!

I recommend this book

By C&D Hunt

I recommend this book. It is a very evocative work that will feel a bit like a journey.

To me, it is best described as an eclectic art museum where the paintings are painted with words—some on large canvases, some are tiny. But many of them will somehow affect you like a provocative painting.

I also strongly recommend the author's wonderful website — City of Dust.

He is both a very gifted writer and photographer.
