"Drawing" Children into the World of Art

By home2books

This is not a how-to book. It is a "why not you, too?" book! The approach is highly entertaining, with an unusual interactive format. The author, an illustrator and author of books for children, describes art in a very down-to-earth way. Mr. Kessler, by asking questions and enticing the reader into participation in the book's activities, encourages the young reader to act on what he/she is reading. Sure to delight the budding young artist!
