"The heroic quest is about saying 'yes' to yourself and in so doing, becoming more fully alive and more effective in the world. . . . The quest is replete with dangers and pitfalls, but it offers great rewards: the capacity to be successful in the world, knowledge of the mysteries of the human soul, and the opportunity to find and express your unique gifts in the world."

In this bold and original work, Carol S. Pearson shows that the heroic quest isn't just for certain people under special circumstances. Exploring the many heroic paths available to each of us, at every point in our lives, her innovative program enables us to live heroically by activating and applying twelve archetypes in our lives.

This companion to the bestselling *The Hero Within* outlines twelve archetypal patterns that can aid inner development and the quest for wholeness.

These archetypes are inner guides that can help us

- prepare for the journey, by learning how to become successful members of society;
- embark upon the quest, by becoming initiated into the mysteries of the human soul; and
- return to transform our lives as a result of claiming our uniqueness and personal power.

Writing for individuals seeking to realize their full potential and professionals engaged in empowering others, Pearson shows how journeys differ by the age, gender, and cultural background of the seeker, and how archetypes help awaken the capacities of our psyches. A unique diagnostic test, the Heroic Myth Index, and exercise are included to help us understand and awaken our inner guides.

An easy-to-read yet rigorous entry point into self analysis

By A Customer

As a software developer and mathematician presently in my early 60's, ever since I can remember I have always been long on technology and short on "people" knowledge. Yet from my early adolescence I remember my dad telling me how important it is to know oneself. While I always agreed with this good advice, whenever I explored my soul, I seemed to fail to come up with meaningful, non-judgemental answers - possibly because my questions themselves were not thought provoking.

Enter Ms Pearson and her "Heroes Within" book. Her brilliant, accessible review of the 12 archetypes that define our personalities suddenly provided me with a new handle - a key to a better understanding of myself and others. What I particularly appreciated in her book was its combination of a rigorous, scientific treatment of the subject, couched in a language both accessible and devoid of academic circumlocutions. I would recommend her book to anyone who wants to understand himself/herself better and/or redefine his/her professional and personal life.

A powerful vehicle for self-discovery.

By team@distantvisions.com

Dr. Pearson's book, *Awakening the Heroes Within*, provides an ideal vehicle for self-discovery and renewal. The book contains self-score instruments that will help readers discover previously untapped sources of personal power. The book seems particularly well suited for adults in their professional years who are looking for ways to clarify their place in the world. The theoretical foundation for the work is both well-grounded and intuitively appealing. Friends, family, and students, have thanked me for the recommendation of this scholarly work. Like me, they revisit the book whenever they are in the mood for a psyche checkup.

Nice Tool for Self-Definition

By A Customer

I'm a Creator and a Magician!--who wouldn't be happy to have learned that? I'm also a gardener, a teacher,

an artist, an adopted grandmother, a community worker, and I have a lot of other roles in life. Because I read this book, I recognize my strengths and my inclinations better, and I know what to emphasize in my work and in my relationships. I'm glad I read this, and I'm giving copies to others who are unsure about their strengths and how to apply them. Thanks!
