Amusing book for baby!

By The Chiang Family

I first heard of this book when a mom was reading to her child out loud. My husband and I thought, what a weird book about coconut trees and alphabets. We thought she made it up.

Enter baby and when we shopped for books this was a bestseller. We bought it and couldn't believe that was the story the mom recited! To my surprise, it was the only book that held my newborns attention. To this day -- now 6 months -- she is still captivated by the book images and rhythm. Favorite book for baby!

4 of 4 people found the following review helpful.

My 3 month old loves it!

By Lisa

My 3 month old is captivated! I'm not sure if she's making the connection to the letters, words, or the fact that I'm reading it, but she scans every page! The board book is sturdy and easy to handle, so I let my girl hold it and play with the pages as well.

2 of 2 people found the following review helpful.

Wonderful Story

By Jessi Bailey

This is one of the greatest children's books of all time. My children love this cute little rhyming tale about all of the letters in the alphabet. We have owned both the board book and the paperback version, and in my experience, by the time that children are able to really enjoy this book, they are able to handle paper page books. My favorite part of this book in the alphabet pages at the beginning and end. This is always a perfect time for me to review the alphabet with my children WHILE pointing to each letter as we sing it. This helps eliminate the confusion of "LMNOP" being one letter! haha
