Note for note transcription of Basie's music

By Bill P

I am a jazz pianist who is trying to pick up on the great Count Basie's style. This book provides an exact transcription of the great Count's playing. Note that none of these songs are solo's, which you would expect as Count Basie played mostly as accompanying other players. This collection does include the Count playing with the great Oscar Peterson and it can be difficult to discern who is playing if you are a beginning pianist. As long as you keep rhythm it shouldn't be a problem and besides the Count had a unique style of playing that makes him stand out, at least for me.

Not as described

Doesn't provide just piano collection. Designed more for piano and other instruments. Wasn't what I thought it would be. Wouldn't buy it again.
