poor read, not what iexpected

By mr appliance

boring and dry book. lots of useless background the history, i was hoping for more background on development of honda products.

Great book about a great company

By Scott Brown

I thought this was full of great background information that gave a real sense of where Honda came from and illustrated why they create such incredible products. I admit to being a Honda fanboy, so I guess that could cloud my judgement, but I was thrilled with this book as it was candid and informative. I enjoy learning all about Soichiro Honda, as he's a hero to me. Love the man, his genius and his flaws. But I learned that Honda was so much more than one man through this read. A great book in my opinion.

Four Stars

By Marcos W. Soria

A must read for all those that blame the downfall of Detroit on unions.....
