Amazon.com Review

On the eve of Armageddon, with the entire galaxy at war, seven pilgrims set forth on a final voyage to Hyperion seeking the answers to the unsolved riddles of their lives. Each carries a desperate hope--and a terrible secret. And one may hold the fate of humanity in his hands.

A stunning tour de force, this Hugo Award-winning novel is the first volume in a remarkable new science fiction epic by the author of *The Hollow Man*.

Review

Praise for Dan Simmons and Hyperion

“Dan Simmons has brilliantly conceptualized a future 700 years distant. In sheer scope and complexity it matches, and perhaps even surpasses, those of Isaac Asimov and James Blish.”—The Washington Post Book World

“An unfailingly inventive narrative . . . generously conceived and stylistically sure-handed.”—The New York Times Book Review

“Simmons’s own genius transforms space opera into a new kind of poetry.”—The Denver Post

“An essential part of any science fiction collection.”—Booklist

From the Publisher

On the world called Hyperion, beyond the law of the Hegemony of Man, therewaits the creature called the Shrike. There are those who worship it. There are those who fear it. And there are those who have vowed to destroy it. In the Valley of the Time Tombs, where huge, brooding structures move backward through time, the Shrike waits for them all. On the eve of Armageddon, with the entire galaxy at war, seven pilgrims set forth on a final voyage to Hyperion seeking the answers to the unsolved riddles of their lives. Each carries a desperate hope--and a terrible secret. And one may hold the fate of humanity in his hands.

HYPERION BY DAN SIMMONS PDF

It is the 29th century and the universe of the Human Hegemony is under threat. Invasion by the warlike Ousters looms, and the mysterious schemes of the secessionist AI TechnoCore bring chaos ever closer. On the eve of disaster, with the entire galaxy at war, seven pilgrims set forth on a final voyage to the legendary Time Tombs on Hyperion, home to the Shrike, a lethal creature, part god and part killing machine, whose powers transcend the limits of time and space. The pilgrims have resolved to die before discovering anything less than the secrets of the universe itself.

Fabulous, deep, amazing book

By Jessica

One of my all time favorite series. Full of great characters, amazing settings, fabulous story lines, and if you read the whole series of 4 books, you'll get into philosophy, religion, ethics, science, the future of mankind in several forms, and a story you won't be able to put down. I cry my eyes out every single time I read the last book, and I've read them all several times. I bought this book to replace one that I loaned out to someone who never gave it back. Goes to show why I don't like to loan my books out. These are incredibly well written, deep and thoughtful, and you will love these books. Almost impossible to describe with any shade of accuracy. I can tell you what it's about and it's like saying the ocean is big. You know what big is, but until you see it, you have no idea what I'm talking about.

Read this, and then the others. You won't regret it.

One Of My New Favorites!

By Tory Harrington

This book vaulted to the top five of my all-time favorites list. It is that good. To start with, it is important to know that the format of this book is a little bit unusual. It is essentially several short stories that flesh out details of the characters and how they got to the point where the novel begins. While there are sections of the "present" they do not make up a majority of the plot. That being said, when the characters are so well realized and the stories so compelling, it makes the story work to perfection. There are a lot of unexpected twists, the writing is beautiful, and there are a lot of mysteries that I was excited to keep reading about. One word of caution: the book drops you in and throws around names and terms without spelling out for you what they mean. It becomes clear as you continue reading, but at the very beginning it may rub some people the wrong way. It is worth it to stick with it however, as it is a masterpiece.

A friend suggested I might like this book

By ocellaris7

I have read so many fantasy books/series, but I've had a hard time getting into sci fi -- I think because I've tended to pick up old school AI or intellectual sci fi. It just bores me. A friend suggested I might like this book. I didn't like it --- I LOVED IT! I loved the character development and the slow reveal of each character's backstory. It's just so well done and so artistically written. It may not have the cultural significance of The Lord of the Rings or the Foundation Trilogy, or the fanbase of A Song of Fire and Ice. However, as an artful, tightly constructed, interesting story, there aren't many that can compete with the Hyperion Cantos series, including the three aforementioned series. The second through fourth books in the Cantos series are also excellent, but pale slightly in comparison to the experience of reading the first book.
