"5'1 is the new 6'2, and Becky's book proves it." –Kristen Bell

Leggy supermodels and pro basketball players be warned: being tall doesn't mean you're always a step up in life

Graphic designer Becky Murphy is five-foot-nothing and proud to be petite. Sure, sometimes being diminutive gets you the short end of the stick, but there are also plenty of unique advantages to being under 5'4"—and Murphy has compiled the 100 best reasons in the delightfully whimsical *I'd Rather Be Short*. Illustrated in a charming, quirky style, *I'd Rather Be Short* highlights the benefits of being petite, from the sensible to the absurd, including:

- You get the best of both worlds: kids' meals and cocktail parties
- You're never expected to help your friends move
- Concertgoers usually won't hassle you when you shimmy up to the front
- You're less likely to get struck by lightning
- Skirts can be dresses; dresses can be skirts
- You're just the way you should be

Witty and heartwarming, *I'd Rather Be Short* is a celebration of self-acceptance—and an instant ego boost to pint-sized ladies everywhere.

I bet you a dollar you can't read this without laughing

By C. Kultgen

This little book is awesome. As a perfectly averagely heighted woman (the mighty 5'4"), I am just on the bubble of being short. However, this height did not come to me until I was about 17, so most of my life I was always either the, or close to the, shortest around. I never stopped to pause at how many awesome things that meant before it was too late and they were gone. Now I am just another normal sized person. Oh regret... However, if you are short, or know someone who is short, grab this baby up NOW and start appreciating all the cool bene's of being bitty.

This book has a great hand drawn illustrations that are simple, uber creative and witty, and have the coolest little details. My favorite reason I'd Rather Be Short? "You are automatically awesome at hide-and-seek."

It is colorful and super nice. Would be a great gift for anyone smaller than the average bear.

Amazing!

By Allison Connell

Perfect for giggles and gifts – I loved the humor and wit inherent throughout the book (plus it's always good to be reminded why being short is awesome!). Couldn't stop smiling throughout the whole thing!

I ordered a couple copies of this book, intending to save some for Christmas gifts, but I immediately gave away my extras to fellow short friends. Had to share!

Great stocking stuffer for your petite friends & family!

By Michelle L. Nickolaisen

This would be an adorable gift for shorter folks! I expected it to be cutesy but not anywhere near as funny as it was - there were several times during reading it when I laughed out loud (which probably looked a little odd since I was reading it in public, but oh well!). It's spot on and is also great at reframing something that's easy to view as a negative - I could see it being a great gift for a teen girl insecure about her height.
