What does an admissions officer look for in a college application essay?

You. It's that simple. There's no formula, no trick, no strategy, says Harry Bauld, a former Ivy League admissions officer. But with acceptance rates at all-time lows, just being yourself in an essay means understanding your readers and the unique form in which you are writing. In this fully revised and updated edition of the classic guide to writing the best essay of your life, Bauld reveals the big clichés (The Trip, The Jock, Miss America, Pet Death) and helps you discover ways to come alive on the page as a real person

instead of applicant number 13,791.

Hilarious and serious; useful for post college, too

By Jim Carson

Though it would initially seem aimed at applying to undergraduate schools, "On Writing the College Application Essay" is excellent for essay writing in general (including MBA applications :-).

The first half emphasizes the importance of knowing your audience. Although we're inclined to think noble laureates will pore over our applications, the reality is they're screened by the Sarah Bleary and Henry Haggards of the world: real folks who see so many applications, that they struggle to differentiate them.

Knowing your audience is only one part of the equation. In the essay, you must convince the reader that you're YOU. Instead, many applicants portray themselves based on what they think the admissions committee wants, often to the extent of sweeping banalities. Bauld explores several of these with his sharp wit. Perhaps the funniest is Pet Death: "As I watched Buttons' life ebb away, I came to value the important things in this world."

In the second half, Bauld suggests you take a chill pill, then start keeping a notebook of any ideas and observations -- anything. Eventually you'll start to relax enough that your writing will come alive. However, before it can come alive, you must get something on paper.

You'll continuously refine and tighten your opus, and the author gives several suggestions of how to approach this, with examples of first, second and third drafts.

Finally, Bauld includes several different essays, a few from college applications, and most not. Each of these conveys a different style but illustrates the crux of the book: you gotta be you.

Excellent resource and easy to read

By monkuboy

I've read several books on the college application process and it is clear that the essay plays a major role in determining whether or not an applicant is accepted. Mr. Bauld has written an entertaining, informative and very easy-to-read book that is also thankfully short. No long-winded, self-congratulatory filler here! It gets right to the point and is generous with excellent examples. In fact, this book is a great resource not only for those prepping to write a college application essay, but it contains great advice for writers in general. This book is well worth its reasonable price for the ideas, motivation and examples it provides. Now I need to get a clue from Mr. Bauld and keep this short and to the point. Bye.

Understand essay process & write one that shows the real you

By ElizabethB

This book gives an excellent and easy to read look at writing your college application essay. If you are just going to read a book and not do the exercises, this is a great choice - it doesn't have any exercises. Instead, the emphasis is on finding your own voice and telling your story. For example, he gives a list of the most overused, deadly topics and then shows how you can write a really good essay on one of the "forbidden" topics. He also includes a number of sample essays with comments from real college admissions officers - so you can see for yourself the difference between good, bad and mediocre.
