Chess is experiencing a new wave of popularity in schools, and it's educational too. Organisations like Chess in Schools are promoting it as the perfect way to develop analytical thinking skills, foster the competitive instinct and provide a lot of fun along the way. This cute, character-based book, aimed at children aged 7 and up, is a complete guide to chess for those starting out in the game. In straightforward, animated language, Jess and Jamie two rough-and-tumble kids who are obsessed with chess explain everything you need to know, from first sitting down at the board to sneaky tricks to help you beat your opponents. The book explains who the pieces are and how they move (and that we're talking about pawns, not prawns), how to reach checkmate (or, in Jess's words, 'how to kill the king'), and the concept of the opening, middlegame and endgame. It also introduces the idea of chess etiquette - and explains why: sometimes no one wins and a game ends in stalemate. Friendlier and more fun than the average children's chess book, The Batsford Book of Chess for Children should become an essential addition to any child's bookshelf.

Great for kids and adult never-ever

By Jonathan Armstrong

Just got this for my daughter for Xmas. She loves it, it takes a never-ever chess player gradually through the pieces so that you're playing shorter, faster games right away and in the process building your knowledge. It's particularly fun for a parent and child because the book is written as a dialogue between two people (so my daughter and I trade off reading it).

Educators will tell you that children who play chess often have higher math test scores - parents will tell you that children who play chess will have additional reasoning skills - both with agree that

This is a great book for a child to read on their own or with a parent!

By Dman

In this book, Jess and Jamie discuss chess including its history, the way the pieces move, the rules and various tactics. They cover all the basics. This is a great book to read with your child . . . you read one part while the child reads the other.
