THE FOREST FEAST: SIMPLE VEGETARIAN RECIPES FROM MY CABIN IN THE WOODS BY ERIN GLEESON PDF

Erin Gleeson made her dream a reality when she left New York City and moved into a tiny cabin in a California forest in order to be closer to nature. The natural beauty of her surroundings and the abundance of local produce serve as the inspiration for *The Forest Feast*, based on her popular blog. Most of the book's 100 wholly vegetarian recipes call for only three or four ingredients and require very few steps, resulting in dishes that are fresh, wholesome, delicious, and stunning. Among the delightful recipes are eggplant tacos with brie and cilantro, rosemary shortbread, and blackberry negroni. Vibrant photographs, complemented by Erin's own fanciful watercolor illustrations and hand lettering, showcase the rustic simplicity of the dishes. Part cookbook, part art book, *The Forest Feast* will be as comfortable in the kitchen as on the coffee table.

Inspiration for simple, beautiful food!

By Amazon Customer

What a great new cookbook! I've been following the "Forest Feast" blog since it began and am still charmed after all these months—that's saying a lot. I just received my copy of the book two days ago and am impressed with the results.

Erin's one-page recipes (with a facing full-page photo of each) are so visually stunning that I want to give each one a try. The idea of presenting a round, plate-sized slab of watermelon as a base for a salad topping is worth the price of the book all by itself. Yum.

I've made butternut apple soup before, but Butternut Pear Soup—garished with popcorn? Wow. And why have I never thought of making a Zucchini Accordion? It's a bonus that every recipe is vegetarian, healthy and quick, just my kind of cooking.

The true sign of a cookbook worth buying? My twenty-something daughter saw mine today and immediately said, "I want one!" So of course, I just ordered one for her and her sister . . .

Great book for teens!

By Dreethim Planer

The Forest Feast captivated my 14 year old! The recipes are simple (few ingredients) and the artwork is appealing.

While beginners in the kitchen can be overwhelmed by more traditional cookbooks, this one doesn't intimidate.

(Some reviewers found the layout difficult, it was straightforward enough for me.)

I don't think an experienced cook will find these vegetarian recipes too exciting.

They rely very heavily on cheese and garlic and more garlic!

But for a new cook, this could be a good introduction.

A Beautiful Book Full of Fresh, Easy to Execute Recipes

By alyberk

The Forest Feast reminds me that great, beautifully presented food does not have to take all day to prepare. The recipes that I have tried so far are delicious, they call for easily accessible ingredients, and are not at all intimidating.

As if that weren't enough, the book is absolutely gorgeous to look at. Rather than storing it in my cookbook library, The Forest Feast has become my newest coffee table book!
