The New Charasmatics by Michael G. Moriarty

By Emerald66

I've read several books on the subject and like The New Charasmatics best. The topic can be very confusing for many Christians, but Moriarity does a great job of clearly sharing the history and people involved in the various movements. He went to a Charasmatic bible college and was a former Assemblies of God pastor (in fact his brother still is). As a result, he writes this book from a fair, balanced, and loving perspective. He notes that he spent seven years researching the subject prior to writing the book. My only disappointment is that the book was published in 1992 and so readers won't find information about how these movements have continued and changed over past 18 years. But the foundation I gained from this book has been invaluable. I would highly recommend it be the first book you read on the subject.

Good Read

By goodlife-2day

Very detailed and a lot of truth. Little winded at the end but overall worth it. Good for students of truth
