An endearing read, especially if you love dogs

By Pheebie

I'll admit it: I'm a sucker for any book featuring a dog on the cover. Sometimes the story inside isn't that great; however, this time it was. Dillon creates vivid, interesting, believable characters that I actually liked and cared about. This was one of those books that, despite the sadness of Juliet's loss, felt cozy. I became thoroughly wrapped up in the intertwining plots and was totally surprised by the twist of 'Mark' / Michael's involvement in the story (did NOT see that one coming - kudos, Ms. Dillon!) I intend to read other works by this author and will absolutely recommend this particular one to friends. I should probably add that I am an incredibly picky reader, especially when it comes to fiction, often putting books down after 40 or 50 pages if the writing, characters, plot or any combination thereof don't click for me. This one was a pleasure from start to finish.

Not for the faint of heart, this is a serious, thoughtful read on life after loss and the resilience of the human heart.

Walking Back to Happiness by Lucy Dillon

Contemporary Romance -Dec. 6th, 2011

4 stars

Juliet has recently lost her husband and remains in hiding from the world. Unable to overcome her grief over losing Ben, she refuses to leave the house even to take Minton, her husband's loyal dog, out for a walk. When Juliet's mum forces her out of the house and into starting a dog-walking mini business, Juliet resists interacting other people but eventually, begins to find her way back into living again. Along the way, Juliet finds herself attracted to the handsome owner of a spaniel and drawn to the chaotic, charming life of her neighbor - an overworked mum with three kids, a dad who's in a band, and an Irish houseguest that helps Juliet fix her house. Slowly, Juliet realizes that it's time to let go and start again...

This was a depressing book in the beginning. For someone who's married, this book hits me right in my greatest fear - what will life be if you lose your other half? I really didn't enjoy the first part of the book simply because it scared me. Towards the end, when Juliet slowly recovers, I started to appreciate the story for what it is - a heartwarming tale of a woman who rediscovers life again. I especially like the sub-plot of Juliet's perfect sister who goes through a mid-life crisis and has an affair. I thought it was really sweet of Juliet to finally get out of her self-involved cocoon and reach out to her sister. The second theme of redemption and appreciating all your loved ones is very touching.

Even though the dogs do play a huge part in Juliet's recovery, the star of the book is clearly Juliet. She's flawed and unlikable at times, but she's real and you can feel her pain. Not for the faint of heart, this is a serious, thoughtful read on life after loss and the resilience of the human heart.
